

Mt Coot-tha loops 50 km

RO: Mark Riley 0416 802 834 m.riley@uq.edu.au

The iconic Brisbane Saturday morning ride. The front, the back and the Gap Ck loop. (With time left over to mow the lawn in the afternoon). Get above all the heat and humidity of the city and enjoy the cool forest and tranquil bird calls of Cootha

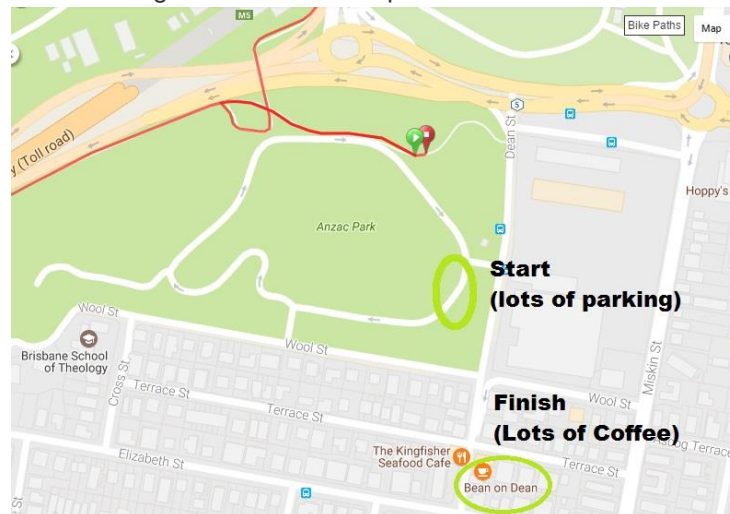

This topologically complex ride will loop Cootha an incredible 2.94 times while still keeping within the Audax spirit.

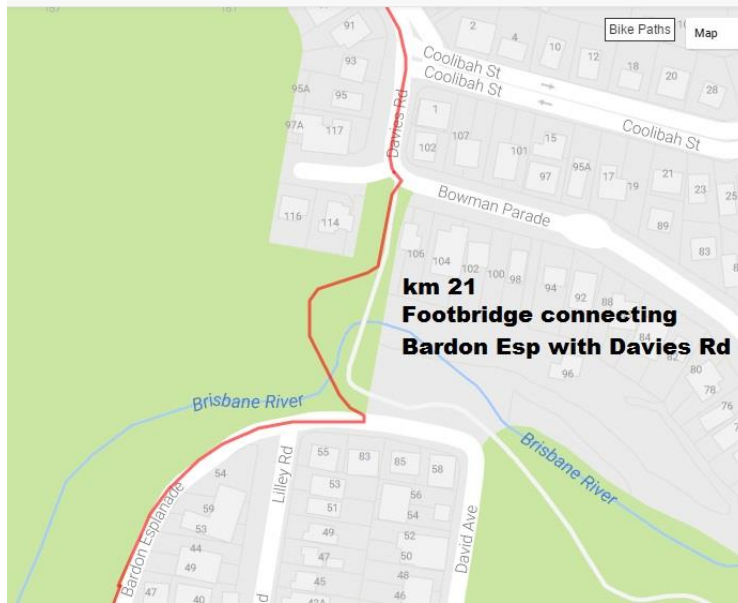

Start/Finish:

There is plenty of parking at ANZAC Park for those driving. Finish at “Bean on Dean” café in Dean St. If I’m not at the finish when you arrive, your card can be signed & left with the person behind the counter.

If you are not familiar with these commonly used short-cuts

Km 21:

Km 42: To minimise travelling along some bad sections of Moggill Rd:
After turning left into Moggill Rd from Rafting Ground Rd, after 200 meters there is a footpath on the opposite side of Moggill Rd that cuts across to Wynderra St.

RidewithGPS says 933m ascent; Strava says 1326m.

Remember, it's not a race; but there is a Strava segment called "Mt Coot-tha Loops 50".
If your time is less than 3h20m you will also be homologated.
